Research Report

FY 2025

Cover Art:

Top left: Dr. Sang Rhee, Department of Biological Sciences, received an NIH award for his project entitled *PTEN and Gut Epithelial Physiology*. The goal of this research will be to investigate the non-classical function of Phosphatase and Tensin Homolog in intestinal epithelial cells and test a potential intervention to prevent PTEN-promoted tumorigenesis and metastasis.

Bottom left: Dr. Wendi Johnson (left), Department of Sociology, Anthropology, Social Work & Criminal Justice, with mentor Dr. Jo Reger, Provost Fellow for Mentoring (right). Dr. Johnson's research with OU Lecturer Aaron Kinzel, primarily focuses on the reentry to society of formerly incarcerated persons who were imprisoned at an early age and spent several decades in correctional facilities. Their research examines how the former inmates' sense of identity changes over time and how social factors help alter their social identity.

Top right: Dr Hongwei Qu, Department of Electrical and Computer Engineering, received an MEDC award for his project entitled *Advanced Manufacturing Higher Education Strategic Investment* and will be used for curriculum development. He also received a DOE award for his project entitled *Development of Hydrogen Sensing Tool*, to develop a miniaturized, low-cost, hand-held, flexible-use hydrogen sensing system.

Bottom right: Dr. Vandre Figueiredo, Department of Biological Sciences, received an NSF award for his project *BRC-BIO: Cell Cycle Regulators in Postmitotic Multinucleated Cells: Conserved Mechanisms Regulating Muscle Cell Size*. In this research he and his team will investigate the role of cell cycle regulators in mature skeletal muscle cells. These proteins are widely known to control cell growth in cells capable of proliferating prior to cell division. However, in postmitotic cells - that is, differentiated cells that cannot proliferate - such as skeletal muscle cells, the role of these proteins are unknown despite being highly expressed by muscle cells. The goal of this research is to elucidate the role of cell cycle regulators in adult muscle cells with hopes to identify novel therapeutic targets to counterattack muscle wasting. He also received an NIH award entitled: *Reverse Engineering Cancer Cachexia: Muscle Ribosome Biogenesis in the Etiology of Cachexia*. Here, he and his team will investigate a mouse model that resembles the effect of cancer cachexia, as severe muscle wasting but in the absence of tumor. In this model, ribosome biogenesis is reduced leading to muscle wasting similar to that observed in advanced cancer patients. While there has been great attention recently to the roles of muscle ribosome biogenesis in regulating muscle growth, the roles of ribosome biogenesis during muscle wasting are largely unknown. His project aims to change that.

Preface

The Research Office is proud to present the Fiscal Year (FY) 2025 Annual Report describing external funding at Oakland University (OU). This report gives readers a comprehensive overview of the nature and extent of external funding provided to faculty and staff to support their research, instruction, public service, student services, and scholarships & fellowships. Detailed data are also provided for proposals that were submitted in FY 2025.

Every year, in writing this Preface, we warn against over-interpreting direct comparisons of numbers or trends from one year to another. However, this year represents an unprecedented interruption of the Federal – and therefore also the private sector – funding landscape. This disruption has caused a small number of funded projects to be cancelled. As of this writing, over \$80M in submitted proposals are sitting at Federal funding agencies with no word as to their disposition. Changes at the Federal level are ongoing, which is putting pressure on foundations to fill the gap, which is radically altering success rates for those competitions. For these reasons, we caution readers about using this data to track trends or extrapolate to future funding levels.

These disruptions resulted in a decline in total funding for FY2025 of nearly \$8M. Total funding for this year dropped to \$21.3M, while research funding dropped to \$14.6. Despite these declines, both SECS (\$9.3M) and SEHS (\$1.1M) had outstanding years. And we would be remiss if we failed to call out Distinguished Professor Huirong Fu for garnering over \$4.2M to support research and teaching in the area of Cybersecurity.

As experts and leaders in their fields, OU faculty and staff continue to secure external funding for a broad range of robust research programs, many of which promote strong collaborations with other universities and research institutes, private industry, and regional organizations. These collaborations are vital in a funding climate emphasizing cross-disciplinary collaboration and public-private partnerships for addressing complex societal needs. Moreover, these sponsored programs support OU's mission to be a student-centered public research university, providing experiential learning opportunities that position our students to become the next generation of scientists, engineers, educators, and performers, while also advancing society through the creation and mobilization of knowledge.

The Research Office deeply appreciates the efforts of the OU faculty and staff who submitted grant and contract proposals during FY 2025, especially in these very challenging and uncertain times, and we extend our warmest congratulations to those who obtained external funding this year.

Technical Notes and Definitions

Annual Report Reporting Period

The **fiscal year (FY)** for OU is July 1 to June 30. This report includes data for all awards and proposals processed through the Research Office for FY 2025. An award is considered processed by the Research Office when it has been reviewed, institutionally endorsed (if necessary), and transferred to Accounting for account set up. A proposal is considered processed through the Research Office after the institutional review and sign off process is complete.

Definition of Award

An **award** is a funded project for which OU has received an official notice of award or executed contract from a sponsor requiring the university to undertake a particular activity and for which a deliverable is expected. Awards that provide full funding in the first year of a multi-year project are included in the fiscal year the award was made. Award dollars received from sponsors that provide funding for specific budget periods within a multi-year project (i.e. incremental awards) are included in the fiscal year for which funding is received. Consequently, funding can fluctuate for a department or college depending on how a project is funded. **Direct year-by-year comparisons should always be made with caution.**

Definition of Proposal

A **proposal** is a request for financial support for a particular sponsored activity that is routed through the Research Office. It is important to recognize that there is no correlation between the proposals and awards discussed in this report, as many of the proposals submitted for the previous year are still pending with the sponsors.

Intellectual Credit

Proposals and awards are credited to the lead principal investigator (PI) and his/her home unit or center, whether academic or otherwise. For proposals or awards that also include co-PIs, the total amount proposed or awarded is credited to the lead PI and his/her home unit.

Sponsor Types

The Research Office recognizes four categories of **sponsors**: federal, state, corporate, and public/nonprofit. Federal sponsors for proposals and awards include direct federal funding as well as flow-through funding when federal dollars come to OU through a non-federal entity (e.g. state agency or other university). Public/nonprofit sponsors include non-Michigan institutions of higher education, municipalities, civic organizations, as well as nonprofit and non-governmental organizations.

Report Layout

This report has eight (8) sections. The first section, award overview, provides a summary of all NEW sponsored awards received by OU through the Research Office for the previous fiscal year. The ensuing five sections include award information separated according to the following activity types: 1) research, 2) instruction, 3) public service, 4) student services, and 5) scholarships and fellowships. The seventh section of the report details proposal submissions for the previous fiscal year. The eighth and final section of the report includes listings of the winners of the 2024 Research, Innovation, and Engagement Town Hall.

Research

A project is classified as research when it involves a systematic study to gain an understanding of a phenomenon. Research culminates in new knowledge and may be either fundamental or applied. A project that funds the maintenance or creation of research facilities, disseminates project findings, or trains individuals in research techniques or methods would also be classified as research.

Instruction

A project is classified as instruction when it incorporates the teaching and training activities of the institution (with the exception of research training, as mentioned above). These projects are intended to elicit some measure of educational change in learners. Instruction includes all teaching and training activities, credit or non-credit.

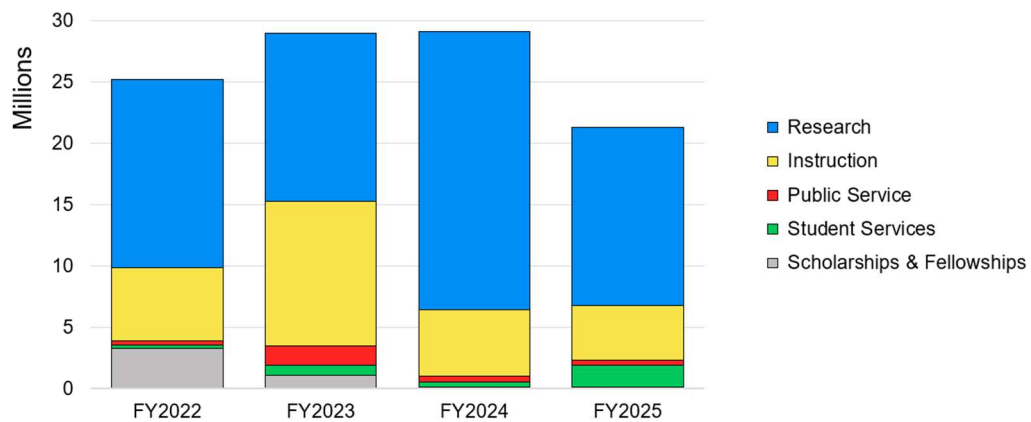

Other Sponsored Activity

The term “Other” is used for sponsored activities that fall outside the formal academic unit structure. This includes, but is not limited to, campus areas such as Academic Affairs Office, Athletics Administration, Campus Police, Campus Recreation, Center for Multicultural Initiatives, Facilities Management, Financial Aid, OU INC, Pre-College Programs, the Research Office, Student Affairs, and Upward Bound. This work is often, but not always, engagement work, public service, or student services.

Amounts and Number of Awards by Purpose

FY 2025 Research Awards by Unit, Department, and Principal Investigator

College of Arts and Sciences

Biological Sciences

Battistuzzi, Fabia; Graduate Assistant Agreement with the Detroit Zoological Society; Detroit Zoological Society, \$148,861

Figueiredo, Vandre; Building Research Capacity of Faculty in Biology: Cell Cycle Regulators in Postmitotic Multinucleated Cells - Conserved Mechanisms Regulating Muscle Cell Size; National Science Foundation, \$502,986

Figueiredo, Vandre; Reverse Engineering Cancer Cachexia: Muscle Ribosome Biogenesis in the Etiology of Cachexia; National Institutes of Health, \$200,358

Figueiredo, Vandre, Hanan, Tlais; The Effect of Unilateral Limb Immobilization in Mice on Muscle Ribosome Biogenesis; University of Michigan / National Aeronautics and Space Administration, \$5,000

Madlambayan, Gerard; The Role of Hematopoietic Stem and Progenitor Cells in Solid Tumor Growth and Response to Radiation Therapy; National Institutes of Health, \$71,873

Rhee, Sang; PTEN and Gut Epithelial Physiology; National Institutes of Health, \$439,049

Biological Sciences, continued

Villa-Diaz, Luis; Chemical and Customer-Based Optimization of Bioengineered Substrates for Stem Cell Culture; Michigan Technological University / Michigan Economic Development Corporation, \$45,455

Villa-Diaz, Luis; Modification in Mitochondria Heteroplasmic in the Retina of Kearn-Sayre Syndrome Patients; Pediatric Retinal Research Foundation, \$10,000

Wagner, Nicole; A Phytopigment Analysis; Great Lakes Environmental / National Oceanic and Atmospheric Administration, \$44,000

Wagner, Nicole; An Ecosystem-Scale Approach to Understanding Changing Winters in the Great Lakes; Michigan Technological University / Michigan Sea Grant, \$7,434

Washington, A. Valance; TLT-1 Intracellular Function; National Institutes of Health, \$434,658

Washington, A. Valance; Sepsis Induced Dysregulation of CXCR1/2 Recycling and Possible Effects on the Effectiveness of Small Molecule CXCR1/2 Inhibitors; Dompé Farmaceutic, \$29,450

Wendell, Douglas; Genetic Identification of Phragmites Subspecies; Great Lakes Commission, \$7,323

Westrick, Randy; SURE Summer Research Program 2025; American Heart Association, \$36,000

Chemistry

Beyeh, Ngong; Faculty Early Career Development Program: Assemblies of Block Copolymers and Macrocycles with Halogen Bonds; National Science Foundation, \$148,280

Bianchette, Thomas; Mexico West Coast Sampling Project; National Science Foundation, \$398,313

Szlag, David; Clinton River Microbial Source Tracking; Army Research Laboratory, \$82,054

Wang, Zhe; Wearable Continuous Drug Monitoring Device for Personal Medications in Opioid Use Disorders; LabSys, LLC / National Institutes of Health, \$82,675

Wang, Zhe, Witherspoon, Erin; Photocatalytic Generation of Reactive Oxygen Species by Single-Walled Carbon Nanotubes for Green Air Disinfection in Ionic Liquid; University of Michigan / National Aeronautics and Space Administration, \$4,992

Yang, Ziming; Fate of Subsurface Ocean Solutes During Ejection into Vacuum; University of Maryland / National Aeronautics and Space Administration, \$208,862

Yang, Ziming; Faculty Early Career Development Program: Mechanistic Understanding of Organic Carbon and Nitrogen Transformations in Hydrothermal Systems; National Science Foundation, \$10,287

Physics

Srinivasan, Gopalan; Strain Engineering of Magnetism in Ferrimagnetic Spinel Ferrites and Garnets by Combinatorial Substrate Epitaxy for Dual H- and E-Tunable High Frequency Devices; National Science Foundation, \$390,001

Srinivasan, Gopalan; Engineered Ferrimagnetic Films via Liquid Phase Epitaxy and Sputtering; ARCTOS / Air Force Office of Scientific Research, \$150,000

Xia, Yang; Corewell Student Research Agreement; Corewell Health William Beaumont University Research Institute, \$51,993

Xia, Yang; MRI Signatures of Response to High-Dose Radiotherapy in Rat Models of Cerebral Tumor - Prabhu Acharya; Henry Ford Health System, \$40,097

Psychology

Escobar, Martha; Advancing STEM Workforce Readiness of Interdisciplinary Scholars for Excellence Using a Mentored Community Approach to Promote Belonging and Professional Identity; National Science Foundation, \$1,087,979

Lewis, Mary; Social Norms Intervention Assessment; Alliance of Coalitions for Health Communities, \$9,635

Writing and Rhetoric

Arzu-Carmichael, Felicity; An Investigation of First-Year Composition Instruction in Two-Year Colleges In Belize, Central America; National Council of Teachers of English, \$2,850

Eye Research Institute

Milton, Kenneth; The Interplay between Norrin and TGFb/BMP Signaling in Retinal Fibrosis; Pediatric Retinal Research Foundation, \$16,600

Tawfik, Amany; Exploring the Role and Mechanism of Platelet Activation and Microthrombi in Retinopathy of Prematurity; Pediatric Retinal Research Foundation, \$5,000

Zhang, Dao-Qi; Therapeutic Strategy of L-Dopa for Premature-Like Retinal Neovascularization; Pediatric Retinal Research Foundation, \$16,600

School of Education and Human Services

Human Development and Child Studies

Kranak, Michael; Using Behavioral Economics to Mitigate Relapse of Problem Behavior in an Intellectual and Developmental Disabilities Population; National Institutes of Health, \$425,955

Kranak, Michael; Optimizing Dimensions of Reinforcement to Enhance Behavioral Interventions; Auburn University / National Institutes of Health, \$177,111

Wakabayashi, Tomoko; Co-Creating a Culturally Sustaining Infant-Toddler Childcare and Resource Hub in a Public High School through Critical Participatory Action Research; Spencer Foundation, \$399,806

Wakabayashi, Tomoko; Evaluation of the Coaching Practices for Early Literacy Training; Michigan Association of Intermediate School Administrators, \$111,859

Wakabayashi, Tomoko; Evaluation of the Coaching Practices for Early Literacy Training; Michigan Association of Intermediate School Administrators, \$18,142

Wakabayashi, Tomoko; Evaluation of the B3 Early Literacy Training; Michigan Association of Intermediate School Administrators, \$7,000

Wakabayashi, Tomoko; Evaluation of the Coaching Practices for Early Literacy Training; Michigan Association of Intermediate School Administrators, \$20,000

School of Engineering and Computer Science

Computer Science and Engineering

Akter, Mst Shapna; Efficient Neuro-Symbolic LLM-Driven Framework for Real-Time Detection and Mitigation of Software Vulnerabilities in Autonomous Spacecraft Systems; University of Michigan / National Aeronautics and Space Administration, \$5,000

Fu, Huirong; National Centers of Academic Excellence Center 2024; National Security Agency, \$3,497,947

Fu, Huirong; Collaborative Research: Early Concept Grants for Exploratory Research: National Artificial Intelligence Research Resource (NAIRR) Pilot Expansion: FA1: Advancing Artificial Intelligence Research with NAIRR Workshop Series on Cybersecurity, Edge Artificial Intelligence, and Autonomous Driving; National Science Foundation, \$150,000

Liu, Anyi; Enhancing Artificial Intelligence Accountability and Security in Industrial Autonomous Systems through Advanced Forensics; Michigan State University / Michigan Economic Development Corporation, \$20,000

Electrical and Computer Engineering

Aloi, Daniel; Low-Cost Antenna and Radar Measurement System for Advance Driver Assistance Systems Development; University of Michigan / Michigan Translational Research and Commercialization, \$150,124

Chen, Jun; Sensor-Lean Estimation and Monitoring for Second Life Electrical Vehicle Batteries; National Science Foundation, \$320,000

Chen, Jun; Sensor Reduction for Large Battery Packs; University of Michigan / Michigan Translational Research and Commercialization, \$119,845

Chen, Jun; Affordable Autonomous Vehicle Platform for University Research and Education; Michigan State University / Michigan Economic Development Corporation, \$55,000

Chen, Jun; Optimal Scheduling of Edge Devices and Decentralized Data Preprocessing; Wayne State University, \$23,750

Dean, Brian; Research Experiences for Undergraduates Site: Applied Research Experience in Electrical and Computer Engineering; National Science Foundation, \$442,853

Electrical and Computer Engineering, continued

Louie, Wing-Yue; Dynamic Allocation of Information through Auditory, Visual, and Haptic Interfaces to Minimize Cognitive Burden and Maximize Performance during Crew-Artificial Intelligence Teaming; University of Michigan, \$140,000

Nasrabadi, Nasser; Towards the Creation of a Large Dataset of High-Quality Face Morphs - Phase III; West Virginia University / National Science Foundation, \$138,000

Qu, Hongwei; Development of Hydrogen Sensing Tool; University of Missouri / Department of Energy, \$199,547

Wiacek, Alycen; Non-Invasive Diagnostic Tools to Characterize Blood Clot Microstructure; National Institutes of Health, \$341,598

Industrial and Systems Engineering

Malik, Ali Ahmad; Modeling Standards of Component-, Machine-, and System-Level Digital Twins in Manufacturing for Full Stack Virtual Commissioning; United States Council on Automotive Research, \$200,000

Mechanical Engineering

Beetham, Sarah; Research Experiences for Teachers Site: More than Automotive-Toward a Healthier Sustainable Society; National Science Foundation, \$599,821

Beetham, Sarah; The Role of Heterogeneity in Iron Particle Combustion-Toward Renewable Extraterrestrial Energy Sources; University of Michigan / National Aeronautics and Space Administration, \$5,000

Gerini-Romagnoli, Marco, Hohensee, Sarah; Metal Substrate Adhesion Using Soy-Based Biopolymers; University of Michigan / National Aeronautics and Space Administration, \$3,999

Gerini-Romagnoli, Marco, DeCroix, Morgan; Effect of 3D Printing Orientation on the Adhesion Properties of Bonded Single-Lap Joints; University of Michigan / National Aeronautics and Space Administration, \$3,997

Golovashchenko, Sergey; Industry-University Cooperative Research Centers Phase I Oakland University: Center for Industrial Metal Forming; National Science Foundation, \$487,500

Golovashchenko, Sergey; Industry-University Cooperative Research Centers Phase I Oakland University: Center for Industrial Metal Forming; Ohio State University / National Security Agency, \$164,000

Golovashchenko, Sergey; Local Property Improvement for Wrought Aluminum and Cast Magnesium; Pacific Northwest National Laboratory / Department of Energy, \$40,293

Mechanical Engineering, continued

Guessous, Laila; Michigan Space Grant Consortium Administrator; University of Michigan / National Aeronautics and Space Administration, \$1,500

Kobus, Krzysztof; Earth System Sciences STEM Camps, Outreach and Teacher Training; University of Michigan / National Aeronautics and Space Administration, \$15,000

Nassar, Sayed; Industry-University Cooperative Research Center (IUCRC) Program; Georgia Tech Research Corporation / Georgia Institute of Technology, \$126,822

Yang, Ankun; Launching Early Academic Pathways in Mathematical and Physical Sciences: Probing Solid Electrolyte Interphase of Sodium Metal Anodes Using Plasmonic Effects; National Science Foundation, \$250,000

Yang, Ankun, Chukwuma, Emenike; Artificial Intelligence Driven SEI Optimization for Sodium Metal Batteries; University of Michigan / National Aeronautics and Space Administration, \$5,500

Yoon, Yongsoon; Engineering Research Initiation: Nonlinear Inverse Model Estimation and Frequency Domain Analysis for Hydraulic Cylinder Diagnostics in Closed-Loop; National Science Foundation, \$9,000

School of Health Sciences

Human Movement Science

Thompson, Kristine; The Impact of Mentoring and Other Support Relationships in the Recruitment, Retention, Professional Development, and Graduation of Black Students of Entry-Level Physical Therapy Programs; American Physical Therapy Association / Michigan Institute for Education and Research, \$1,000

Public and Environmental Wellness

Sakyi, Kwame; A Multi-Method, Multi-Domain Approach to Evaluating Preterm's Effect on Child Growth and Development; University of South Carolina / National Institutes of Health, \$373,358

School of Medicine

Afonso, Nelia; Promoting Vaccine Confidence in Medical and Dental Students: Development and Evaluation of an Educational Intervention; Merck Corporation, \$5,000

Al-Shabrawey, Mohamed; Toward Targeting GPR31 and GPR39 Signaling in Diabetic Retinopathy; National Institutes of Health, \$375,060

Homayouni, Ramin; Intelligent Social and Behavioral Health Tool (INSIGHT) for Addressing Health Related Social and Behavioral Needs; University of Houston / National Institutes of Health, \$149,996

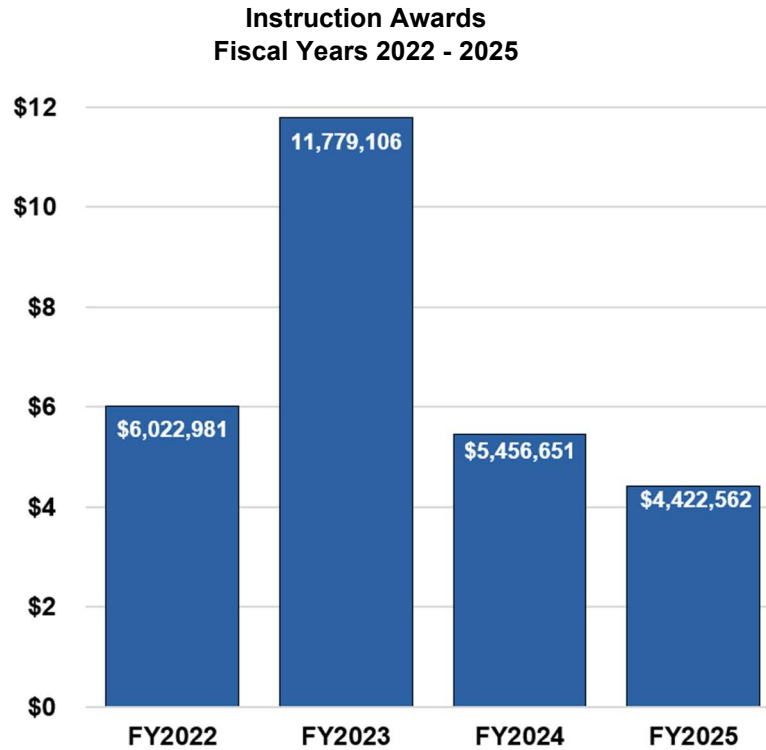

School of Nursing

Boni, Rebecca; Professional Quality of Life Among Oncology Nurses in the United States; Sigma Global Nursing Excellence, \$5,000

Academic Affairs

Banes-Berceli, Amy; Replacement of Two Autoclaves for Oakland University's Biomedical Research Support Facility; National Institutes of Health, \$283,505

FY 2025 Instruction Awards by Unit, Department and Principal Investigator

College of Arts and Sciences

Modern Languages and Literatures

Pieri, Caterina; Contribution for Chairs of Italian Language; Consulate of Italy in Detroit, \$8,581

Political Science

Stavick, John; Evaluation of Short Courses; University of North Carolina, \$1,200

Sociology, Anthropology, Social Work and Criminal Justice

Beam, Maria; Advancing School Social Work through Enhanced Training and Stipends in Southeast Michigan; Michigan Department of Education, \$122,000

School of Engineering and Computer Science

Computer Science and Engineering

Fu, Huirong; Oakland University 2024 GenCyber Grant Program; National Security Agency, \$789,304

Fu, Huirong; B2C@OU; Northeastern University, \$18,244

Electrical and Computer Engineering

Qu, Hongwei; Advanced Manufacturing Higher Education Strategic Investment; Michigan Economic Development Corporation, \$968,295

School of Health Sciences

Dean, Caress; Community Project Funding / Congressionally Directed Spending - Non-Construction; Department of Health and Human Services, \$350,000

School of Medicine

Clemans, Rebecca; MI CARES 4.0: State Opioid Response; Michigan State University / Michigan Department of Health and Human Services, \$35,788

School of Nursing

St Denis, Michele; Corewell Health Participant Support-Corewell Health Nurse Scholars Program; Corewell Health, \$2,075,000

Other

Advancement Services

Pollock, Stephanie; 2024 OUWB Holocaust and Medicine Education; The Ravitz Foundation, \$9,000

Recreation and Well Being

Lewis, Rebecca; Midwest American College Sports Medicine: Exercise is Medicine On-Campus Mentoring Grant; American College of Sports Medicine, \$750

OU CARES

Garcia, Alicia; Lifelong Education, Advancement, and Potential Program: Out-of-School Time Learning Grant for Autism Center at Oakland University; State of Michigan, \$44,400

Research, Innovation, and Engagement Town Hall – FY 2024 Winners

President Ora Hirsch Pescovitz Innovation Award

Dr. Zhe Wang
Department of Chemistry, CAS

Researcher of the Year Award

Dr. Taras Oleksyk
Department of Biological Sciences, CAS

Most Active Research Award

Dr. Jun Chen
Department of Electrical and Computer Engineering, SECS

Xiangqun Zeng Most Active Grant Seeker Award

Dr. Jun Chen
Department of Electrical and Computer Engineering, SECS

Outstanding Junior Investigator Award

Dr. Michael Kranak
Department of Human Development and Child Studies, SEHS

Outstanding Research Department Award

Department of Biological Sciences, CAS

Research-Led Teaching Award

Dr. Huirong Fu
Department of Computer Science & Engineering, SECS

Kathie Lesich Award for Excellence in Laboratory Support

Ms. Kathie Lesich
Department of Biological Sciences, CAS

Research Office
