SUBJECT: STUDENT E-MAIL SYSTEM USE

NUMBER: 1160

AUTHORIZING BODY: STRATEGY COUNCIL

RESPONSIBLE OFFICE: UNIVERSITY TECHNOLOGY SERVICES

DATE ISSUED: MARCH 2003

LAST UPDATE: FEBRUARY 2012

RATIONALE: This policy was issued to establish the Oakland University provided e-mail address for each student as an official method of communication between the university and its students. In addition, the policy attempts to assure that this communication facility is not abused and that students are not inconvenienced by its use. It requires that all students regularly check their university provided e-mail and be responsible for messages sent using this system.

POLICY: To establish consistent communication with students, Oakland University provides each of its students with e-mail services and an official Oakland University E-mail Address. Oakland University departments, operating units, faculty and staff are urged to communicate with students using the Oakland University E-mail Address for official communication. Students are accountable for reviewing the communications sent from the University to their Oakland University E-mail Address.

SCOPE AND APPLICABILITY: This policy applies to all student e-mail sent to or from an address within the oakland.edu domain.

DEFINITIONS:

Communications Use: Communications Use refers to standard e-mail messaging between or among individuals.

Confidential Data: Defined in OU AP&P #860 Information Security.

E-mail Address/E-mail Account: A unique name assigned with e-mail services within the oakland.edu domain.

Official Use: Official Use includes, but is not limited to, communication between faculty and students, communication within a course, administrative communication with students regarding registration, billing and collection, payroll issues and other similar matters, campus closures and crisis updates, and aggregated news and information from University Communications and Marketing. Official Use will comply with OU AP&P #420 Employee Broadcast E-Mail Procedures and does not include solicitation to purchase or sell or advertising of any kind, particularly from third parties. Therefore, student e-mail lists may not be sold or given out for such purposes.

PROCEDURES:

- G. Users of e-mail for Official Use must recognize that it is inherently insecure from send-point to end-point, and as such, care should be taken not to disclose Confidential Data in an e-mail message.
